October 2025

## Inside This Issue:

- ◆ Partnership Update
- ◆ Flu & COVID
- ◆ Cervical Screening
- ◆ Mounjaro
- ◆ NHS App
- ◆ Medication Ordering
- ◆ BEAT Heart Failure

## Partnership Update

As many of you know the partnership has changed this year.

Our GP partners are Dr Daniel Edmonds, Dr Gareth Jones, Dr Edward Jones and we are pleased to inform you Dr Adam Wood will be completing the partnership and joining from October 2025.

Many of you may have met Dr Adam Wood as he completed some of his GP training here with us. I am sure you will join us in welcoming him back into the team.

## Flu & COVID Vaccinations

Flu and COVID season is back, our clinics are on and available to be booked into, please contact us to book.

### Please note the COVID eligibility criteria has changed:

Adults Aged 75 & over

Patients 6 months and over who are immunosuppressed

Care Home Residents

## Practice Afternoon Closure For Staff Training

**23/10/2025**

We will be closed for the afternoon from  
**14:00—18:30**

## Cervical Screening Update

Anyone who is screened on or after 1 July 2025 and tests negative for HPV will move to 5 yearly screening unless previous screening history suggests they should be screened more regularly. This means that patients aged 25-49 who are negative HPV after 1 July will be recalled every 5 years instead of every 3 years.

Normal smear results from the NHS Cervical Screening Programme will be sent to patients via an NHS App message. It will appear as an NHS App notification, and if you don't have notifications switched on for the NHS App, you may also receive an SMS message to remind you to check the app.

If the NHS App message is not read within 72 hours of delivery, or if you don't have the NHS App, a letter will be sent as a failsafe.

**Don't ignore  
your cervical  
screening invite**

## QUEEN CAMEL MEDICAL CENTRE

Main Telephone Number

**01935 850225**

Dispensary Telephone Number

**01935 850225—Option 2**

Between 09:30—11:00

## Mounjaro

We are aware that Eli Lilly and Co, the producers of Mounjaro are planning to increase the cost of supply by 170% from the 1<sup>st</sup> of September.

As a surgery we fully understand this medication has helped some patients achieve significant weight loss when supplied from private providers. We also understand if the price rises by the same percentage for consumers and patients, this may make it too expensive for some patients to continue. Unfortunately, we will not be able to supply it in these circumstances unless meeting the strict NHS Criteria which can be found on our website.
